

## How to Export All Logs

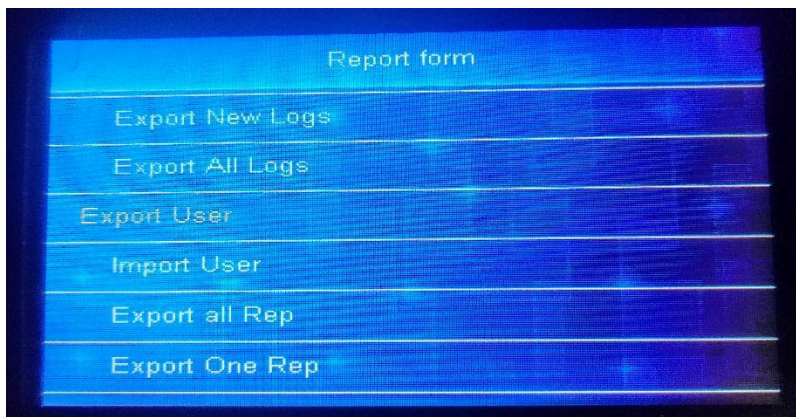

1. On the main menu, select Report Form and press [OK].

2. Insert the USB drive into the biometric device's USB slot.

3. Choose Export All Logs. Wait a second for a successful transfer to your USB disk.

4. Insert the USB drive into your PC's USB slots. View the user logs by opening the text file.

No	IMNo	EnNo	Name	GMNo	Mode	DateTime
